

AKRON FOSSILS & SCIENCE CENTER®

Getting Dusty Digging for Dinosaurs Party Packages

DINO-DIG: \$95.⁰⁰

Includes:

- Admission for a party size of up to 10 kids
- Private party room complete with its own **Dig Pit** for 2 hours
- Two **Fantastic Fun Dino Activities** (see back list for details)
- Mini guided tour of the Science Center
- FREE admission to Truassic Park and FREE zip-line ride (weather permitting)
- FREE **Dino-mite Gift** for the birthday child
- Additional party participants: \$9.50 per person _____ = _____

DINO-MITE: \$115.⁰⁰

Includes:

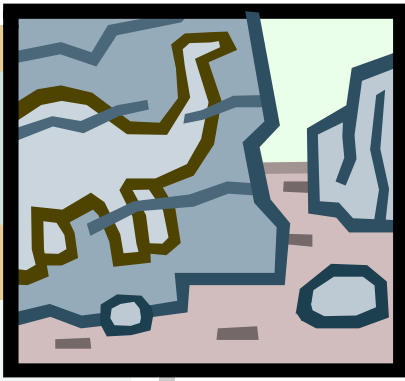

- Admission for a party size of up to 10 kids
- Private party room complete with its own **Dig Pit** for 2 hours
- Three **Fantastic Fun Dino Activities** (see list for details)
- Mini guided tour of the Science Center
- FREE admission to Truassic Park and FREE zip-line ride (weather permitting)
- FREE **Dino-Mite Gift** for the birthday child
- Additional party participants: \$11.50 per person _____ = _____

DINO-SPLURGE: \$135.⁰⁰

Includes:

- Admission for a party size of up to 10 kids
- Private party room complete with its own **Dig Pit** for 2 hours
- Four **Fantastic Fun Dino Activities** (see list for details)
- Mini guided tour of the Science Center
- FREE admission to Truassic Park and FREE zip-line ride (weather permitting)
- FREE **Dino-Mite Gift** for the birthday child
- Additional party participants: \$13.50 per person _____ = _____

Getting Dusty Digging for Dinosaurs Activities and Party Extras

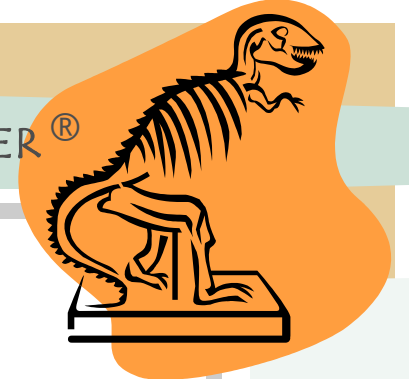

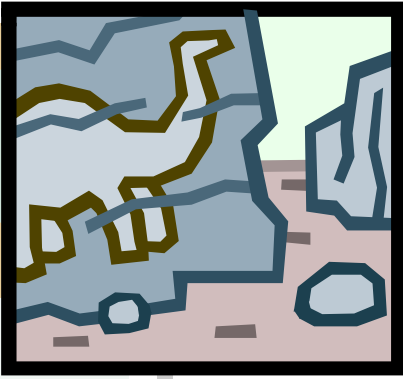

- Trilobite Casting
- Pretend Homemade Hot Lava
- Dino Sand and Paper Plate Art
 - Bobbing for Dino Bones
 - Fossil Replica Making
 - Catastrophe Tubes
 - Ice Age Dino Dig
 - Bubbling Lava Lamps

Party Package Total: _____

- Small Volcano Eruption—\$5 + _____
- Big Volcano Eruption—\$10 + _____
- Steaming Dry Ice Party Punch—\$20 + _____
- Themed Place Settings—\$3 each + _____
- Power Packed Prize Bags—\$3 each + _____
- Round of Mini Golf—\$20 + _____
- Extra Zip Line Tokens—\$2 each + _____

Grand Total: _____
 - Coupon: _____
 - Deposit: _____
 Balance Due: _____

Getting Dusty Digging for Dinosaurs Activity Descriptions

- **Trilobite Casting (Educational)**

This activity is a fun, hands-on way to learn the science of making a replica of a fossil. Using pre-made trilobite fossil molds, participants get to mix a molding compound that is then used in the molds to create their very own trilobite cast to take home. This activity is educational for all ages and involves a science talk on the topic of trilobites.

- **Imitation Hot Lava**

This activity is a messy, hands-on mixing project that creates a simulated lava that glows under our black lights. Participants get to take their own baggy of lava home.

This activity is not educational but is very fun and exciting for all ages.

- **Dino Sand and Paper Plate Art**

This activity is for the art lovers. Using one paper plate, participants are challenged to create an artist's rendition of a long neck dinosaur. After creating the dinosaur, multiple containers of colored sand are used to decorate it. This activity is not educational but is very fun and exciting for all ages.

- **Bobbing for Dino Bones (Educational)**

This activity is a silly game where participants get the chance to bob for bones in simulated, catastrophic conditions. This activity is educational, geared toward older ages, and involves a science talk on catastrophism.

- **Fossil Replica Making (Educational)**

- This activity is similar to the trilobite casting activity, however, participants make their own molds from clay and sea shells. This activity is also educational for all ages and involves a science talk on the topic of sea creature fossilization.

- **Catastrophe Tubes (Educational)**

This activity involves making simulated catastrophic conditions inside a recycled water bottle. Ingredients include: mud, water, simulated ash, stones and shells. When mixed, the ingredients are jumbled, however, once settled down, simulated sedimentary rock layers form. This activity is educational for all ages and involves a science talk on the topic of sedimentary rock layers.

- **Ice Age Dino Dig (Educational)**

This activity is a silly game where participants get the chance to dig out fake dinosaurs frozen in simulated glaciers. Teams are divided and the digging and melting begin. The team that melts the most dinosaurs in the allotted time, wins! This activity is educational for all ages and involves a science talk on the Ice Age.

- **Bubbling Lava Lamps**

This activity involves making simulated lava lamps using recycled water bottles, oil, water, dye and beads. To create the bubbling effect, effervescent tablets are added at the end. This activity is not educational but is very fun and exciting for all ages.
